Reporting Process

Since we are looking at large number of fellows and there will be a group of people doing this process it is imperative that we follow a set reporting procedure.

It will be expected that each member churns at least 5 prospect fellows every day and 35 prospects every week.

In any day that you are not able to work you can work more on any other day so as to meet the desired target, which will also increase your earning potential.

-contd-

The details of the last week fellows will be shared on Google doc on each Monday.

This will be checked for any duplication or any corrections required.

There will be a QUICK skype call on all Tuesdays at a prefixed time (say 2000 hrs). This is just to coordinate any interventions required by the team.

Should there be any other issues which are required to be addressed urgently, it can be done any time during any other day.

Each CURATOR should close at least 20 confirmed paid fellows each month. This would help one to earn around 5 lakhs per annum.

THANK YOU
