A letter from Dr. APJ Abdul Kalam to founders

"Jerry, I have a humble request regarding my nomination. I read through the website and trivia booklet to learn more about the criteria for the Karmaveer Puraskaar awards.

I agree with Dr.Vergheese Kurien that the Karmaveer award is the most credible honor, because of your guiding principles of egalitarianism, simplicity, austerity, fairness, and integrity. I have huge respect for Dr. Vergheese Kurien, who was a dear friend and your first-lifetime achievement award recipient. Therefore, I feel, that I need to do more in my personal capacity, to deserve the lifetime achievement award which all of you have nominated me for."

"Self-Awareness and Self-Help happens from Self Learning. You don't need anyone else to teach you or tell you to learn. That's why it's called Self-Discovery & Self Development. Children and people must LEARN to LEARN something new everyday"

“Teachers in our world today need to realise the pride and power of this vocation. We are not just teachers, but awakeners, enlighteners and transformers because only teachers have the power to see, touch and change the future.”
-Jeroninio Almeida

Few schools have a balanced emphasis on the spirit of Volunteering and Community service and to recognise this noble spirit, we at ICONGO are launching Rex Karmaveer Global Educationchangechampions Fellowship & Chakra Awards. This would be a unique event and REXperience which will, for the first time, recognise Education-Leaders, who are proactively promoting and encouraging Volunteering and Community Service in their schools.

An exclusive Fellowship & Award for Schools and Education-Leaders is a step towards acknowledging and celebrating the work of education leaders in the area of Community Work and Volunteering.

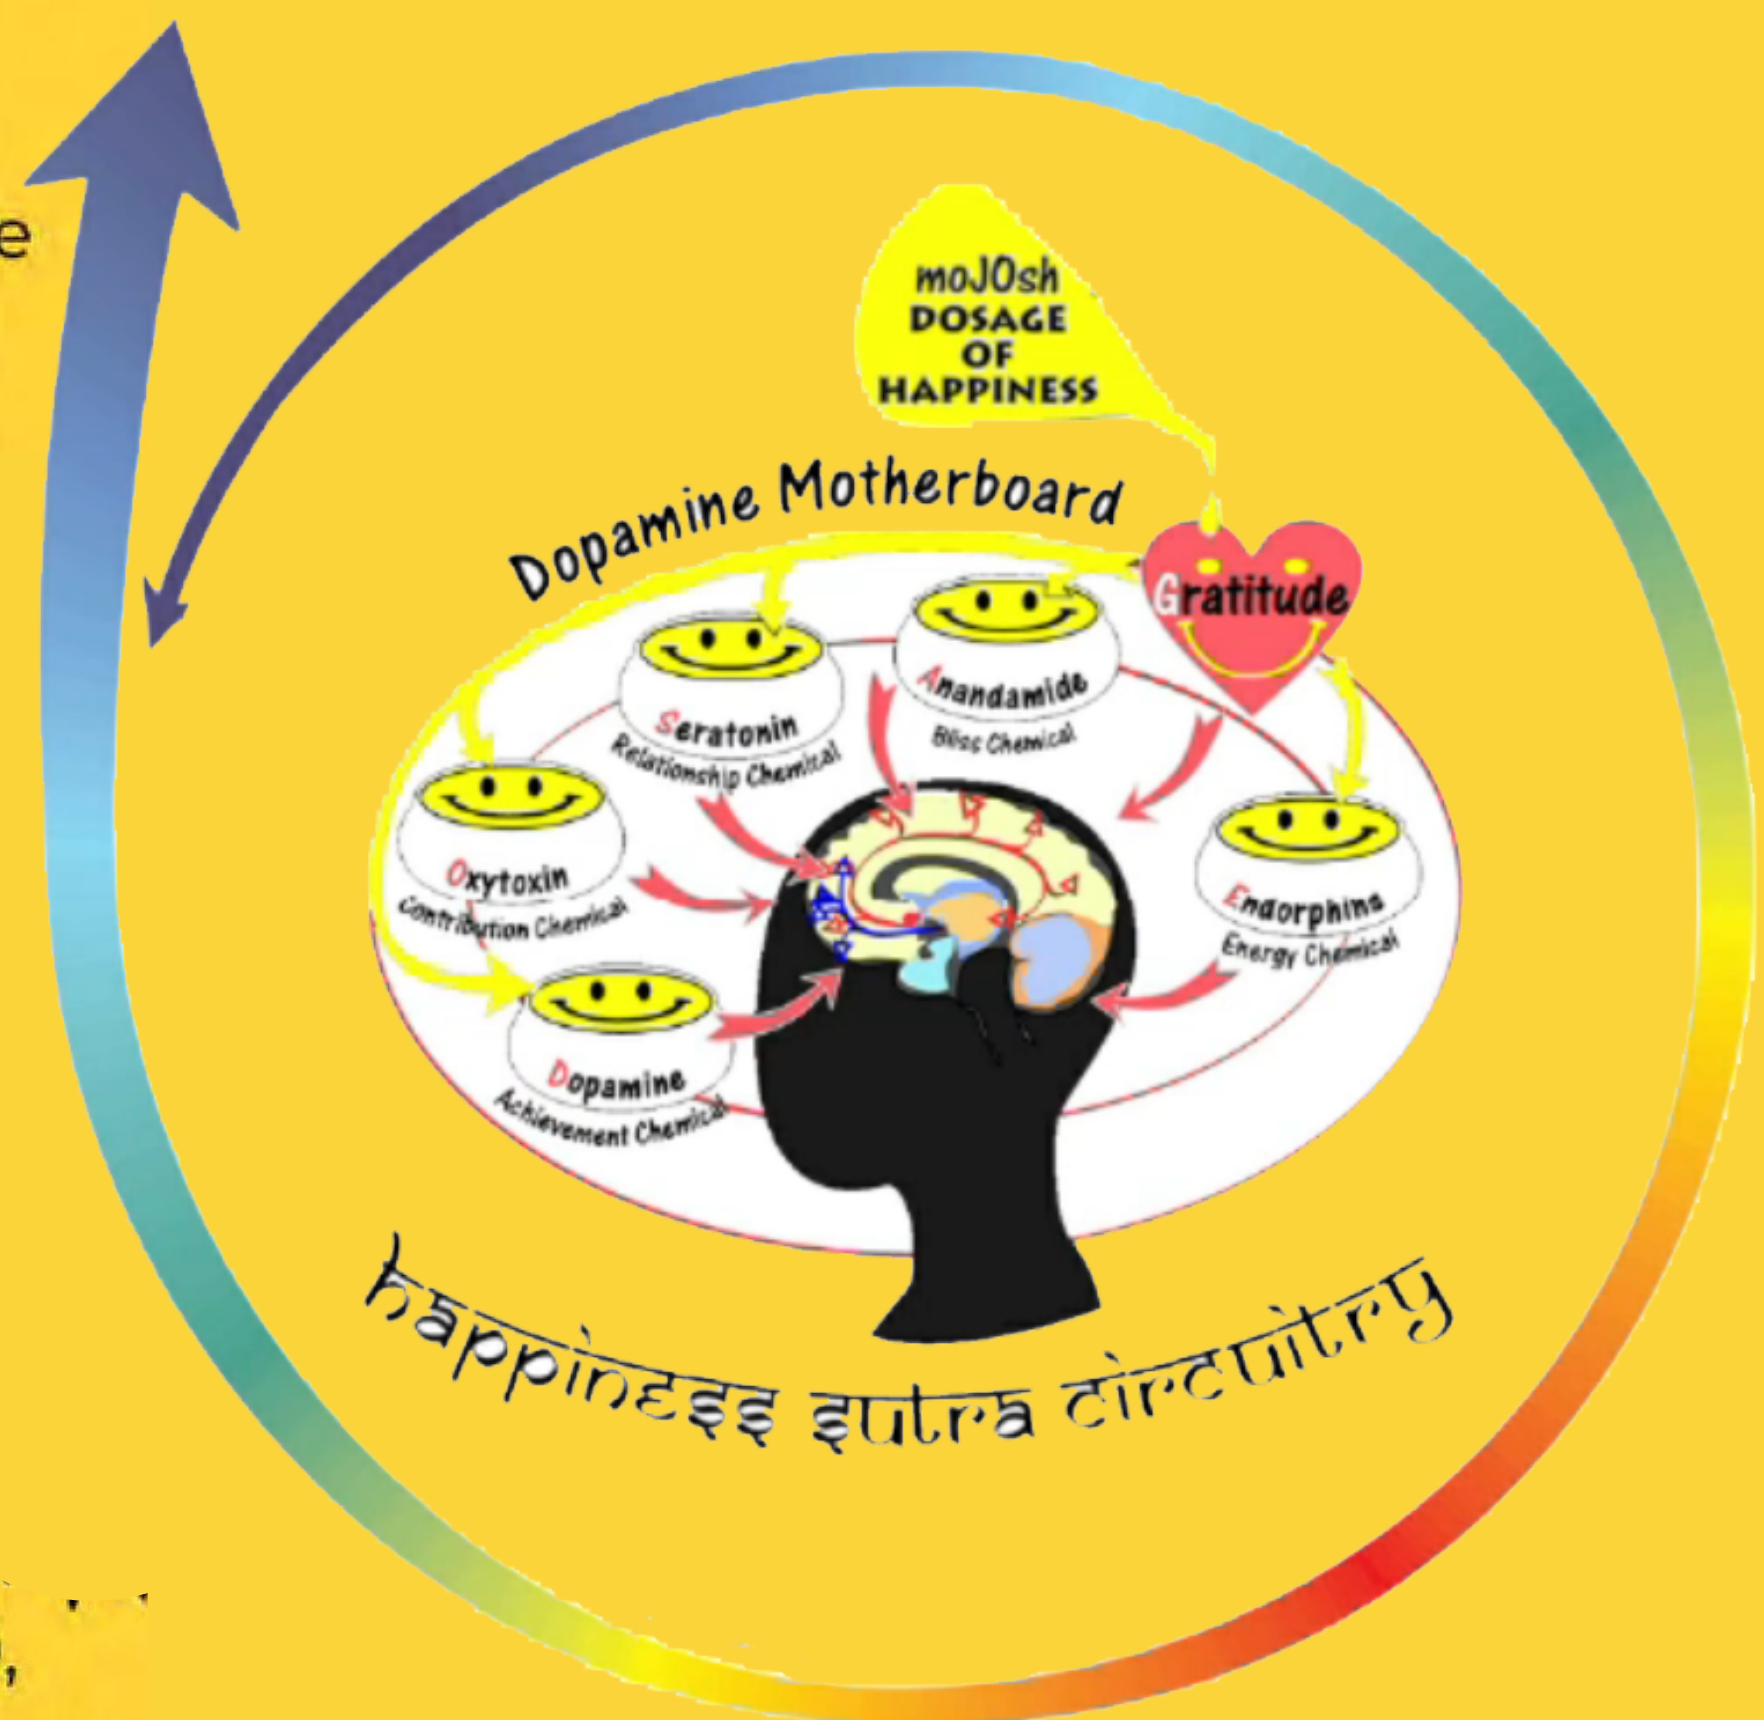

The Hero in Me (THiME) is our Ethos of Learning as we sincerely believe that every human being has a hero and unlimited potential within to achieve, unleash and empower GREATNESS in themselves and others.

VOLUNTEERING THE HAPPINESS EFFECT

Helping others Kindle happiness, as many studies have demonstrated. When researchers at the London School of Economics examined the relationship between volunteering and measures of happiness in a large group of American adults, they found the more people volunteered, the happier they were, according to a study in Social Science and Medicine.

Compared with people who never volunteered, the odds of being “very happy” rose 7% among those who volunteer monthly and 12% for people who volunteer every two to four weeks. Among weekly volunteers, 16% felt very happy—a hike in happiness comparable to having an income of \$75,000–\$100,000 versus \$20,000, say the researchers.

I change to change India because the world and India will change when I become the change.

Volunteering helps children to unleash Heroic Potential by inspiring solid character, and helps individuals to go beyond the strive for extraordinary.

Volunteering enables positive transformation and helps people to understand that all change starts with the self. I change to change the world.

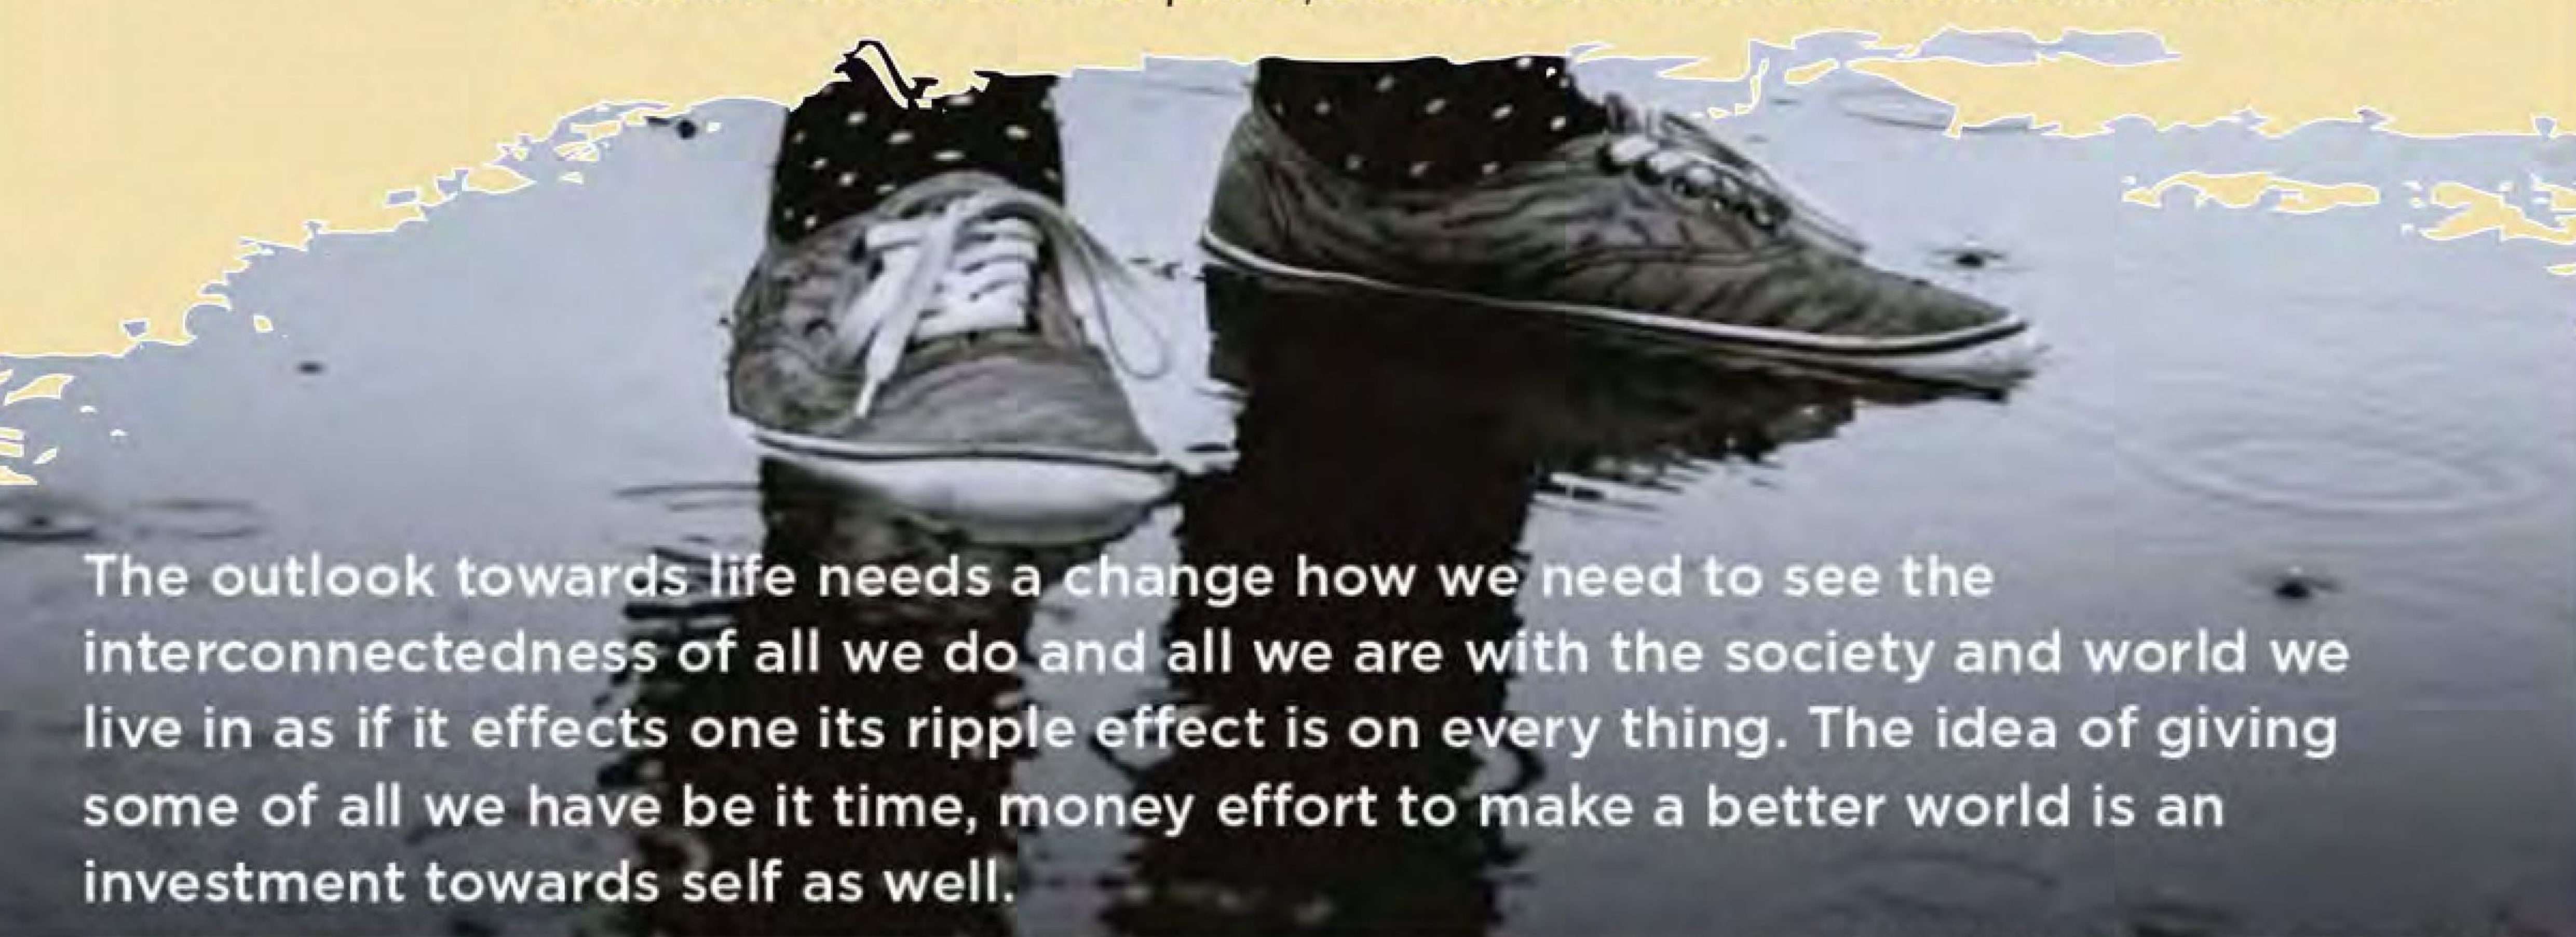

The Rex, Karmaveer and RIGHT every WRONG movement celebrates the **POWER OF ONE**, individually and collectively because "We the People are We The Power"

Our Mission: Encouraging social justice by inspiring citizen action.

Our Mission: To create an egalitarian, just, humane & responsible Society, where social justice & communal harmony prevails for one and all.

Our Vission: to have 7 billion people from around our world practicing humanity, human values and fulfilling their fundamental duties as citizens to make the world a better place, Because a better world benefits each and all.

Our Dream: to have 7 billion people from around our world practicing humanity, human values and fulfilling their fundamental duties as citizens to make the world a better place, Because a better world benefits each and all.

The outlook towards life needs a change how we need to see the interconnectedness of all we do and all we are with the society and world we live in as if it effects one its ripple effect is on every thing. The idea of giving some of all we have be it time, money effort to make a better world is an investment towards self as well.

My country bleeds as it feeds on the decaying flesh of the common man woman and child. Who is either slaved or raped on the name of bigotry, twisted notion of fanaticism or greed to be the politico creed. My country is being devoured day and night bite by bite and we stand mock spectators as if nothing is wrong with the shameful sight. We debate create a little hue and cry but still don't get that so much is being contrived in the name of vote that we say is our right. My country is bleeding and we can't see what is right in front of our eyes.
